NEW CONSTRUCTION PROJECT WITH PLOT AND VIEWS IN MALLORCA'S NATURE

You are looking for a small but fine Finca, in a nice position?

Here we offer you the possibility of a small modern new construction project at a bargain price with every comfort. Small and cheap still means you can rely on the best construction, materials with approval for new buildings and quality management!

The construction project includes a new single-story building and pool, with insulation, water and moisture barriers, authentic wooden optic windows on request, as well as climate protection glass and lots more qualitative construction details.

Secure your Mallorca dream in this green environment - in the area of Son Macia! - without long lead times for complicated official procedures at a fixed price and ready to move in.

We are pleased to present you this Finca including details from the planning and building.
