NEW CONSTRUCTED FINCA ON HILLTOP WITH AN UNIQUE ALL-ROUND VIEW

You are looking for a Finca on a generous and wide plateau, on top of a hill at the south-east coast of Mallorca.

Due to its special and elevated position this Mallorca real estate offers an unique foresight over large parts of Mallorca, like the monastery of Sant Salvador, the monastery of Randa and the mills of Felanitx.

This Finca is perfect for energetic people who want to do their own work, especially in the outdoor area. As experienced construction company in Mallorca, with lots of experience in the Finca construction, we are the right contact person. Under the rubric, **/Bauen/Bauqualität**, you might find the right construction fotos and ideas for your home. This Finca with its secluded position is a pure appreciation object with lots of expansion potential.

We would be pleased to present this real estate in Mallorca, with unique location, at a personal visit to you.

- Your Real Estate Construction Mallorca -

! Pool is not included in the price! The construction of a pool area is already presented at the construction authority and will soon be handed out !
