AUTHENTIC FINCA WITH NOSTALGIC CASTLE CHARACTER

You are looking for a new Finca, which reminds you of old land houses and is technically on the latest version? Than here you found the right house.

In a comfortable drive, you have fast acces to the airport or to the different shopping possibilities in all directions. In only short drives you can reach the beach Es-Trenc, Santanyi or the fish-harbour in Porto Colom with the nearby "Golf de Fall D'or".

With this real estate you save yourself a piece in the calm green paradise, with view to Sant Salvador, the monastery Randa and the Sierra de Tramuntana. The vast property offers a lot of peace, a lot of space to relax and say "yes" to yourself.

From the beginning, this finca was constructed with the thought of maintenance minimization, under the concept of convenience and planned and finished with a high detailed- and quality-demanding. A Finca with few further construction and maintenance expenditure. The special things aren't only the many technical details and refinement but also the herefor asphalted access till the gate. The mix of the nature stoned house front, inside the classical material like nature stoned plates and the change to sterile acting surfaces and the latest technique are the small special and extravagant details, which give this mallorca real estate the special cut.

We are looking forward to present this unique real estate to you.
